D.O. No. 11018/4/2008-IT

April 27, 2013

Dear *Sh. Singh,*

Delivery of hardware under NeGP-A is being undertaken now-a-days as per the delivery location details shared by the State Government with this Department. There are 1846 cities/towns & other locations where hardware and system software are to be delivered. There are multiple locations in every such location. In order to facilitate the process of site preparation, delivery, installation/acceptance testing, a web-based application has been developed by this Department and the same can be accessed from website <http://farmer.gov.in/cais/login.aspx>.

The States are expected to get the data pertaining to three important stages referred to above, entered at the State/District level. Data entry of all locations at District and other lower level locations within a District shall be done at the District level. Similarly data entry for Division/Zonal, University, State and other similar levels above the District level will be done at the State level. User IDs for your State & Districts are enclosed as **Annexure-I**. Initial password is **negpa**. Immediately after first login the user will be forced to change the password. Initial user IDs and passwords for the respective districts have also been emailed to them directly.

You are requested to ask all users to login immediately and test the interface by entering some dummy/real data. In order to remove doubts, if any, a video conference with the states and selected districts will be held on May 03, 2013 at 4.00 PM. It is requested that all end-users may be asked to complete data entry for all stages meticulously, so that further implementation of NeGP-A can proceed smoothly.

with regards,

Yours sincerely,

(Sanjeev Gupta)
